

**FY 2015/16 Overall Work Program
Project Eligibility Guidelines:**

- Must include a 15% local match, up to 10% of which may be in-kind.
- Includes other funding partnerships if applicable – i.e. other jurisdictions or entities that share a vested interest in the project should be materially involved.
- Is not easily fundable through another funding source.
- Is regionally significant – i.e. the project must result in more than localized benefits.
- Does not backfill a project that is already planned – i.e. incentive funds are intended to enable new projects, not to substitute regional funds for local funds.
- Not intended to backfill staff time due to budget cuts.
